

Kavindu Harshana

Senior Software Engineer (Full-Stack)

📍 Kottawa, Colombo 📞 +94 77 321 3916 @ kythonlk@gmail.com 🌐 <https://kythonlk.tech>

Summary

Senior Software Engineer with nearly **6 years of experience** building and maintaining **web and mobile applications** for international clients and companies. Strong background in **React, Next.js, Go, Node.js, PostgreSQL**, and **cloud-based deployments**. Experienced in owning features end to-end – from system design and development to deployment and production support.

Experience

Extra Co Group (extraco.ae)

Senior Software Engineer / Team Lead (Websites, Web Apps & Internal Systems)

Sharjah ,UAE (On-Site)

September 2023 – Present

- Took ownership of **compromised production websites**, removed malware, hardened security, and stabilized WordPress systems (extraco.ae, albadr.ae, fixperts.ae).
- **Rebuilt and maintained WordPress platforms**, improving performance, security, and long-term maintainability.
- **Designed and developed new production websites** (goc.ae, terracoreme.ae) using **React**, with focus on performance and SEO.
- Built and maintained **business-critical internal systems**, including:
Extra Co Cashier Software, **Visa Management Pipeline (HR => PRO => Management)**, **CRM & ERP custom modules**, and **payment integrations**.
- **Led a 3 member development team**, acting as technical lead and developer for **cashier system**, **Fixperts customer mobile application** and **visa software** development, handling core architecture and APIs.
- Managed deployments and production environments using **Docker, CI/CD, Portainer**, and **CloudPanel** on Linux servers.
- Worked across the stack using **Go, React, Next.js, JavaScript**.

Iclick Online Technology (iclick.co.nz) / Lead Lanka International
